IT-INDIA.com

About the Founder and IT-INDIA.com
IT-INDIA.com is a business venture founded by me in late 90s. I got into I.T. in mid 90s, started my career as a Computer Science teacher and was promoted to Computer Science Incharge within a few months at Henderson Jubilee School, Kharar.

Who are we?
We are the fellas behind many big firms. We do the SEO and SMO labor for large firms in Western parts of the world. I am sure you know how outsourcing works? SEO firms in advanced nations utilize skilled agents and experts in India and we are happy with this natural balance.

What we love to do at IT-INDIA?
How does it feel when you wake up to see your rankings on Google climbing by leaps? Backlinks ramping up.. that's exhilarating, that is inspiring and yea.. this is what we love to do. It has to be amazing, stunning and exhilarating on the SEO and SMO front, sorry to say there is nothing else that inspires us at IT-INDIA.com

Research and Integrity above everything
Well, I wish I had better words to explain the sanctity we put in our work. Every backlink we build, every piece of content we write has to be legitimate, clean and awe inspiring. Everything we indulge in has to have research behind it, otherwise it's not amazing and without research I find my job boring.
Fake Bot Traffic, spammy dirty Backlinks using bots, Paid Traffic aka guaranteed traffic -- We hat all such activities. Anything that is fake and crap, we hate it, period..
I can assure you that every hour spent by our team will include highest standards of purity and expertise.

Skills and Expertise:
For Organic Search (traffic from sites like Google)

1. Content Development (on-page and off-page)
    - Private Blog Networks
    - Review and Rating sites
    - Forum participation
    - Wiki content
    - QA sites
    - Groups and Discussion threads
2. High PR backlinks from
    - .edu and .gov sites
    - Social bookmarks
    - Social networking
    - Facebook and Twitter

Staff with high academic Credentials:
The SEO and SMO agents are mostly graduates from mainstreams, but most of our experts have PGs with many years of experience. B.Tech in I.T, MSc Computer Science etc.

Very Low Pricing:
Our hourly rates start from $5 per hr. You can hire our agents at this rate. The experts are available from $10 per hr.

· *Tasks that our agents can do*
- Social networking
- Forum-Blog participation and likes

· *Tasks that our experts can handle*
Designing, setting up and maintenance of

- blog networks
- wiki sites
- .edu and .gov backlinks
- Strategy for Twitter and FB
- Broad planning and vision

Summary:
We at IT-INDIA can assure you of highest quality standards. Our high quality services coupled with low prices are unmatched. We can deploy a team of 5 or 50 depending on your needs. You wanna storm social platforms and want people talking about your products and services in a natural way? You can bet on us.

If you have any kind of queries or require a custom quote, feel free to email me directly.

best regards,

Sameer Arora
